

Executive Summary

2025

In a nutshell: Some of our 2025 outstanding achievements

01

XXXIV Plenary Meeting held in-person in Mexico City with 27 speakers and over 130 participants, promoting strategic dialogue within the industry. Participation of key health, trade and sustainability Authorities, such as PROFECO, COMCE, COFEPRIS, CESPEDS, SEMARNAT, the Mexico City Secretariat of the Environment, and CONAGUA, among others.

02

6 Webinars aimed at 9 Authorities in the Region on key topics for regulatory convergence (ARCSA Ecuador, DINAVISA Paraguay, SRS El Salvador, MINSA Costa Rica, ANMAT Argentina, ISP Chile, MINSA Panama, DIGEMID Peru, and INVIMA Colombia) with more than 80 officials participating in the sessions.

03

Sectoral Training: 7 webinars, 11 training sessions, and one Virtual Week (with 13 conferences reaching more than 900 connections). Strengthening the diffusion of specialized knowledge and alignment with best practices, consolidating CASIC as a strategic ally in regulatory convergence.

04

First Regional Agreement for the removal of Technical Barriers to Trade – Regulatory Cooperation for the Cosmetics Industry (11 countries): Finalization of the negotiation, since CASIC's initial proposal to ALADI in 2017, after 3 years of negotiation.

05

1st CASIC Virtual Workshop on Extended Product Responsibility – Shared (EPR-S): With the participation of environmental Authorities from Colombia, Chile, and Argentina, 5 collectives from LATAM countries, and companies in the sector.

06

Eco-design Training Program in LATAM, in coordination with 11 Local Associations of the region, reaching more than 70 companies with over 320 registered participants. Training on Golden Design Rules, Webinars, indicators, and success stories.

07

3 New Industry Position Papers. Definition of key guidelines for **Extended Product Responsibility – Shared (EPR-S)**, **Manual of Good Regulatory Practices on Sunscreens** based on Global Regulatory References, and **Declaration of Allergens**.

08

Exclusive for CASIC Members: CASIC Regulatory Dashboard: Update of regulatory mapping (sanitary and environmental) for all countries in the Region, and data visualization in PowerBI. Soon to be available in the internal section of CASIC's members webpage.

09

Advocacy: Position in 12 public consultations across the Region's countries, 16 statements on key advocacy issues in Latin America, and 6 international public consultations.

10

12 Regulations Impacted with CASIC's support to local Associations in the search for best practices, trade facilitation, and regulatory convergence in the Region (Costa Rica, Dominican Republic, Andean Community, Central America, Mercosur, Chile, Panama, and Paraguay).

11

Strengthening the Subregional and Regional Agenda, positioning CASIC as the industry reference: Participation and support in negotiations between Authorities of the Andean Community, Central America, Pacific Alliance, and Mercosur, promoting trade facilitation.

12

Active participation in International Fora. We represent the region in key fora such as ACI, AISE, ALADI, COSMETICS EUROPE, IAC, ICCS, INCPA, PCPC, strengthening regional presence and promoting collaboration on key topics for the industry.

Uniting milestones, driving challenges.

2025 has been a year of intense work and significant achievements for the Council of the Cosmetics, Personal Care, and Home Care Industries (CASIC). Within a challenging regional context marked by multiple hurdles, strengthening the regulatory framework, above all, was consolidated as a strategic priority. We understand that technical, harmonized, and predictable regulation is the foundation for facilitating trade, legal certainty, and the competitiveness of the industries we represent. At CASIC, we consistently reaffirm that without clear, well-constructed rules that account for industry reality and innovation, no product can reach the market safely and sustainably. Conversely, with such rules, we drive innovation, investment, and value generation across the entire production chain.

Throughout 2025, CASIC played an active role in the institutional and business life of the industry, representing large, medium, small, and micro-enterprises—both local and multinational—across Latin America with balance and commitment. Our advocacy allowed us to support key regulatory and market facilitation processes, anticipate risks, propose technical solutions, and strengthen the dialogue with authorities and regional organizations with whom we work in coordination. This constant and articulated trade association work has been fundamental in improving business conditions, protecting corporate profitability, promoting responsible consumption, and fostering a competitive environment that recognizes the diversity and reality of each country in the region.

An essential pillar of these advancements has been the work of CASIC's technical committees, composed of experts from the member companies themselves, who contribute knowledge, experience, and strategic vision. Under CASIC's leadership as the regional umbrella for these industries, the committees analyzed threats and opportunities, built common positions, and actively contributed to formulating proposals that strengthen the sector. This collective effort reflects the true value of CASIC: a platform and cooperation body that unites capabilities, aligns interests, and works with a forward-looking vision for the sustainable development of the cosmetic, home care, and personal care product industries in Latin America.

As we look toward 2026, we face significant challenges in many areas. However, we are confident that through our technical capacity, scientific backing, coordinated efforts, ongoing training, and the support we provide to our partners—along with the unity that strengthens us, the passion that drives us, and especially the ethics with which we fulfill our roles—we will together forge a wonderful and spectacular year, the kind we all deserve.

María Fernanda León.

TWO INDUSTRY EVENTS

04

One in-person and one virtual, these events brought together industry leaders, Health, Sustainability, and Trade authorities, as well as regional and international organizations: the XXXIV Plenary Meeting in Mexico City, held May 27–29, and the CASIC Virtual Week, held October 27–31.

XXXIV CASIC Plenary Meeting – Mexico City.

May 2025 – In-Person Plenary Meeting, which became the best-attended edition in the history of CASIC.

In the framework of the XXXIV Plenary Meeting, representatives from CASIC and the local Association, CANIPEC, held institutional meetings in Mexico City with PROFECO to continue advancing toward clear communication for consumers, and with CESPEDS, seeking to promote a common environmental agenda.

During the first day of the XXXIV Plenary Meeting, an intra-industry analysis and an overview of the regional and global landscape were conducted.

During the second day of the XXXIV Plenary Meeting, authorities and experts debated regulation, trade, and sustainability. Best practices were shared aiming to align regulatory frameworks and strengthen the competitive development of the industry in Latin America.

Self-Care Route:

The XXXIV Plenary Meeting featured the debut of the CASIC Self-Care Route, an experience designed for participants to immerse themselves in spaces of wellness, relaxation, and renewal, exploring the mindful use of our industries' products. Each station was a vibrant setting created to inspire calm, reflection, and personal care—making this gathering an unforgettable moment!

Executive Board 2025–2027

On Tuesday, May 27, an internal work session was held at CASIC, which included meetings of the Board of Directors, the Council of Associations, the Council of Companies, and the General Assembly. The goal was to strengthen spaces for dialogue, planning, and institutional coordination. The General Assembly elected the following members of the Executive Board of Directors for the 2025–2027 term:

President:
María Fernanda León
PROCOSMETICOS

Secretary:
Iván Sandoval
COLGATE PALMOLIVE

1st Vice President
Fabián Flores
L'ORÉAL

Treasurer
Carlos Berzunza
CANIPEC

2nd Vice President
Jennifer Daniel
CACECOS

Association Representative
Yeili Rangel
ANDI

3rd Vice President
Alex Froio
PROCTER & GAMBLE

Company Representative
Gina Mejía
KENVUE

CASIC Virtual Week 2025.

CASIC Virtual Week had over 900 connections and featured daily sessions during five days, covering the following topics:

Market intelligence of the Cosmetics, Personal Care, and Home Care Industries in the Region

The Latest Developments in Sunscreens

The Cali Fund: Genetic Resources and Benefit-Sharing

Recent Advancements in Fragrance Ingredients and Chemical Substances

The European Union's Digital Product Passport (DPP)

EVENTS AND MEETINGS WITH AUTHORITIES

07

FEBRUARY 5

Meeting with the Congresswoman proposing the Microplastics Law in Costa Rica. In accompaniment and support to CACECOS.

APRIL 23

Training for new ARCSA (Ecuador) officials on Cosmetic Product regulation in the Andean Community.

APRIL 30

DINAVISA (Paraguay) training on the regulation of Commercial Kits or Sets with INVIMA as the invited reference Authority on this topic.

JULY 21

CASIC training on cosmetovigilance in El Salvador as part of the "Salvadorian Cosmetic Association Conference on cosmetics and hygiene regulatory updates."

JULY 30

CASIC Webinar on Disposable Hygiene Products: Technology, Safety, Regulation, and Self-care, addressed to Authorities from 3 countries (Argentina-ANMAT, Chile-ISP, Paraguay-DINAVISA) with regulatory initiatives. More than 20 officials connected.

AUGUST 1

CASIC and CANIPEC meeting with Mexico's Secretariat of Economy regarding cosmetic negotiations in ALADI. Promoting the industry's position on this Regional negotiation.

AUGUST 13, 14, and 15

Technical Table DIGEMAPS, AFAPER, CASIC. Review of industry comments on the public consultation and analysis of the draft Technical Regulation Governing Cosmetics, Personal Care, and Home Care in the Dominican Republic.

AUGUST 21

08

CASIC and Procosmeticos meeting with the Ministry of Trade of Ecuador. Discussion on cosmetic negotiations in ALADI: promoting the industry's position on this Regional negotiation.

AUGUST 25

CASIC and CACECOS Webinar for the Ministry of Health of Costa Rica: "Update on International Reference of Cosmetic Ingredients in LATAM." With participation from the INCI Team of PCPC as speaker.

SEPTEMBER 3 and 4

CASIC meeting with Peruvian Authorities (DIGEMID and MINCETUR) to present the industry position on the Andean draft Labeling Regulation, use of stickers, and cosmetic claims.

SEPTEMBER 4

CASIC and CANIPEC meeting with Mexico's Secretariat of Economy and COFEPRIS regarding cosmetic negotiations in ALADI. Promoting the industry's position on this Regional negotiation.

SEPTEMBER 12

Meeting with AGEMED Bolivia to present the industry position on the Andean draft Labeling Regulation, use of stickers, and cosmetic claims.

SEPTEMBER 26

Webinar: Good Regulatory Practices in Cosmetovigilance. Addressed to 5 Authorities in the Region (Chile, Panama, El Salvador, Colombia, and Peru). 49 officials from the Authorities connected. Participation of ANVISA, ABIHPEC, and HENKEL Germany as key-note speakers.

OCTOBER 2

CASIC and ANDI meeting with the Colombian Ministry of Trade regarding negotiations in ALADI, Andean Community, and Pacific Alliance progress. Promoting the industry's position in the negotiations and implementation of various agreements.

New Members:

Regarding the institutional development process, HENKEL became a member of CASIC during 2025.

Active Working Committees in 2025.

CASIC continues to focus its efforts on three main commissions, bringing together more than 300 participants: Trade Facilitation, Sanitary Regulatory Affairs, and Sustainability. The working groups and subcommittees address key strategic issues with the goal of promoting best practices throughout the Region:

01

Trade Facilitation Committee.

02

Sanitary Regulatory Affairs Committee.

- Subcommittee on Ingredients
- Subcommittee on Sunscreens
- Subcommittee on No Animal Testing (NAT)
- Working group: In-Market Control

03

Sustainability Committee.

- Working group: Microplastics
- Working group: Single-Use Plastics, Extended Product Responsibility – Shared (EPR-S), and PCR
- Working group: EcoBeauty Score
- Working group: Look Good, Feel Better
- **New – Working group: Biodiversity**

Regional Subcommittees.

- Andean Community (CAN) Subcommittee
- Central America Subcommittee
- Mercosur Subcommittee
- Pacific Alliance Subcommittee

Cross-cutting Subcommittees:

- E-Labeling WG
- Market Intelligence WG
- Personal Care WG
- **New - Borderline Claims Task Force**

PARTICIPATION IN GLOBAL INDUSTRY FORUMS

10

IAC

International
Association
Collaboration

International Association Collaboration (Cosmetics and Personal Care Industry).

Participation in this Global Forum allows the region's cosmetic industry to stay updated on advances and the evolution of international regulations, as well as contributing Latin America's position to global discussions. Some of the main groups in which CASIC participates are:

- Working group on the **United Nations International Treaty to address Plastic Pollution**.
- WG on **Global Environmental Initiatives mapping**.
- **WG on allergens** in cosmetics. Mapping global regulatory initiatives.
- WG on the **implementation of the Cali Fund**, issuing global positioning and participating in the UN public consultation.
- **CASIC leadership of the E-labelling** working group. In October 2025, CASIC achieved approval for the public facing document on e-labeling principles for the cosmetics and personal care industries. Leadership continues to identify actions in the current global environment.
- **WG on traces**. Commencement of work with the definition of terms of reference.
- **WG on Artificial Intelligence**. Commencement of work with the definition of terms of reference.

ICCS

ICCS | INTERNATIONAL
COLLABORATION ON
COSMETICS SAFETY

CASIC participates in the ICCS LATAM working groups, monitoring the work plan for the Region. During 2025: ICCS participated in the CASIC Plenary Meeting; work was done on the construction, execution, and analysis of the LATAM survey on NAMs needs; and the 2026 work plan for the Region was defined.

INCPA

INCPA
International Network of
Cleaning Product Associations

INCPA International Network of Cleaning Product Associations (Home Care Industry).

CASIC actively participated in the meetings of this Global Forum, sharing and learning information about the evolution of the regulatory framework and trends in other regions of the world for the industry. Currently, CASIC leads the e-labeling positioning project in this forum.

EBS

B
EcoBeautyScore
ASSOCIATION

EcoBeauty Score:

The global initiative progresses in developing a common environmental impact scoring system for cosmetic products, aiming to empower consumers to make more informed purchasing decisions. This year, the virtual publication of the first product results in 4 segments was achieved, following the official launch of both the platform and the program in the media.

MARCH 13

Extended Product Responsibility – Shared (EPR-S) in LATAM Workshop.

Implementation perspective from the Government (environmental authorities of Colombia, Chile, and Argentina), Industry cases, and lessons from Society (5 collectives).

APRIL 1

Webinar: Synthetic Polymer Microparticles. +100 participants.

Specialist speakers from BASF shared practical cases, guidelines, implementation timelines, and possible exceptions for these substances.

APRIL 23

Webinar: Biodiversity Regulation in Brazil.

With ABIHPEC as speaker, aimed at the CASIC Biodiversity working group.

MAY 15

Training for Argentinian companies on the context of the Regional and Colombian Market.

CASIC and ANDI collaborated with CAPA and the Argentine Investment and International Trade Agency for this informative session.

JUNE 5

Training at CAPA's Technical and Regulatory Commission

on the Modernization of Cosmetics Regulation – MoCRA of the United States of America.

JUNE 9

Training for students of the Cosmetic Science and Technology Specialization at the National University of Colombia:

on the Latin American cosmetic sector and generalities of cosmetic regulation in the region.

JUNE 12

Webinar Presentation of the GSS Brogotá project to the Biodiversity Working Group.

The project seeks to spread key elements of legislation on access and benefit-sharing worldwide.

12

JULY 2

CASIC training on current NAT regulatory status in LATAM.

during Kenvue's RA University session.

JULY 10

CASIC training for CAPA's Sustainability Commission.

Update on sustainability regulations in LATAM.

JULY 17

CASIC training on the Regulatory Status of the Cosmetic and Personal Care Industry in Latin America for ABIHPEC Members.

Update on health, market, and sustainability regulations; 140 ABIHPEC members connected.

AUGUST 1:

CASIC training on the European Packaging and Packaging Waste Regulation for CANIPEC's Sustainability Commission.

Details of new European requirements on recyclability, recycled content were shared.

AUGUST 12

Eco-design Training Program Webinar, alliance between CASIC and The Consumer Goods Forum.

Explanation of the program and invitation to participate and start the training on the renowned Golden Design Rules.

AUGUST 20

Training on Good Sustainability Practices for CONNECT and the Bogotá Chamber of Commerce.

Sharing concepts of Water, Energy, Circular Economy, SUP, and EPR-S.

CASIC training on the Regulatory Status of the Cosmetic, Personal Care, and Home Care Industry in Latin America aimed at IFRA Members.

Update on health, market, and sustainability regulations for IFRA members in the Region Worldwide.

SEPTEMBER 12:

Webinar: Biodiversity Regulation in Colombia.

Taught by the National Water and Biodiversity Center of ANDI for the CASIC Biodiversity working group.

SEPTEMBER 16

CASIC training on the Regulatory Status of the Cosmetic and Personal Care Industry in Latin America for STANPA Members (Spain).

Update on health, market, and sustainability regulations. +80 STANPA members connected.

SEPTEMBER 17

CASIC Webinar on EPR-S in LATAM – for the Eco-design training program.

Invitation provided upon completing registration for the Eco-design course.

NOVEMBER 14

CASIC training at the Consumer Goods Forum Plastics Working Group.

Regarding the regulatory mapping of EPR – Shared in LATAM.

OCTOBER 15

CASIC Webinar – Eco-design in Action, indicators, and success stories with participation from CGF, Kenvue, and L'Oréal.

Highlighting that eco-design work led in LATAM has been implemented globally.

MOST RELEVANT SUPPORT IN 2025 – ADDED VALUE BY SUBREGION

MOST RELEVANT SUPPORT IN 2025 - ADDED VALUE BY COUNTRY

15

PACIFIC ALLIANCE

- Monitoring the implementation of Cosmetics and Home Care Annexes already agreed upon in the initiative, aiming to avoid potential renegotiations and delays in their implementation.

ANDEAN

- Achievement of the amendment to the Andean Cosmetic Labeling Regulation (Res. 2540, Nov 2025), clarifying: the use of complementary labels or stickers, non-translation of widely known generic names, non-obligatory reporting of information changes from third countries, among others.
- 4 indirect training sessions for Andean Authorities with CASIC support (DG GROW, CE, STANPA, CTPA): Cosmetic claims – borderline, use of stickers/complementary labels.
- 9 CASIC+Local Associations joint statements directed to Andean Authorities: prioritization of Agenda topics, amendment of Decision 706, borderline claims, use of stickers, cosmetic groups, generic denominations, Bimatoprost, TPO.
- Monitoring of +20 rounds of negotiation by Andean Authorities. Participation in defense of topics of interest and impact for the industry.

ALADI Agreement for the removal of TBTs in the Cosmetic Industry.

Finalization of the negotiation, from CASIC's initial proposal to ALADI in 2017, and after 3 years of negotiation – 11 countries in the Region: Argentina, Brazil, Bolivia, Chile, Colombia, Cuba, Ecuador, Mexico, Peru, Paraguay, and Uruguay.

The most representative achievements of the negotiation are: Definition of cosmetic product, product notification, in-market surveillance system, elimination of the FSC (Free Sales Certificate), ingredient review systems taking international references, labelling harmonization, and GMP – according to ISO 22716.

MERCOSUR

- Amendment of restricted and prohibited substance lists in cosmetics: Adoption of industry comments (Local Associations + CASIC) regarding the removal of the extended allergen list and adaptation periods. CASIC response to 2 public consultations by Brazil/ANVISA in 2025.
- Monitoring and participation (VP CAR) during in-person negotiation rounds of Mercosur Authorities – Cosmetics and Household Cleaning Subcommittees (May – Argentina, and October - Brasilia).
- CASIC statement on Uruguay's proposal (reference temperature) within the framework of Mercosur Subgroup No. 3 (metrological control).
- Achievement of clarity in Paraguay (dialogue with DIVANISA) regarding the National Treatment situation resulting from special treatment granted by the Supreme Court to some local players.

NEW REGULATIONS PUBLISHED IN 2025:

16

Mercosur

[Res. GMC 05/25 RT](#) Mercosur for Cleaning Products and Related.

[Res. GMC 06/25 RT](#) Mercosur Restricted ingredients in cosmetics. [Annex](#).

[Res. GMC 07/25](#) Amendment of Res. GMC 62/14 Prohibited ingredients in cosmetics.

[Res. GMC 27/25](#) Amendment of Res. GMC 62/14 Prohibition of Diphenylphosphine oxide (TPO) and Dimethyl-p-toluidine (DMTA).

ARGENTINA

[Provision 3562/2025](#). Eliminates prior ANMAT intervention in imports managed by direct users for cosmetics, over-the-counter household products, oral hygiene products, and disposable hygiene products (external and intravaginal).

[Provision 4033/2025](#). Eliminates prior ANMAT intervention in the import of products, samples, and raw materials for authorized establishments when products are properly registered.

[Provision 4053/2025](#). Establishes a new simplified list of procedures for companies and products in the sector. [Annex](#).

[Provision 4059/2025](#). Modifies the intervention regime for advertising of regulated products.

[Disposición de ANMAT 7939/2025](#). Establishes a new scheme for Establishment Authorizations, Modifications, and Extensions via the Sworn Declaration system. [Annex I](#) and [Annex II](#).

BRAZIL

EPR targets (reverse logistics) and Recycled Resin targets for plastic packaging. [Decree N.º 12.688 de 2025](#). In force since publication – October 21, 2025.

[4ta Edition](#) of the Q&A document on RDC 894/2024 Good Cosmetovigilance Practices.

[RDC 951/2024](#). Procedure for migrating cosmetic product notifications to the Solicita/Datavisa System.

[Resolution RDC 965/2025](#). Modifies RDC 951 of 2024. Deadlines for migrating cosmetic product notifications to the Solicita/Datavisa system are modified.

[Law 15.183/2025](#). Law prohibiting the use of animals in testing personal care products, cosmetics, and perfumes, as well as their ingredients.

[RDC 995/2025](#). Prohibition of Diphenylphosphine oxide (TPO) and Dimethyl-p-toluidine (DMTA). Modifies RDC 529 of 2021 on prohibited substances in cosmetics.

[Manual](#) for calculation based on the Acute Oral Toxicity Estimate (ATE) for disinfectant products.

PARAGUAY

[Decree 3423/2025](#). Internalization of Res GMC 48/21 on Cosmetic Product Labeling.

[Decree 3421/2025](#). Internalization of Res GMC 14/21 on List of permitted UV filters in cosmetic products.

[Dinavis Circular](#) on prohibition of ingredients Diphenylphosphine oxide (TPO) and Dimethyl-p-toluidine (DMTA) in cosmetic products.

[Decree 5233/2025](#). Internalization of GMC Resolution 18/23 regarding the classification of cosmetic products.

[Decree 5239/2025](#). Internalization of GMC Resolution 36/22 regarding the Technical Regulation for Household Cleaning Products.

URUGUAY

[Law 20446/ 2025](#). National Budget 2025-2029. Creation of the Health Surveillance Agency of Uruguay (AVISU).

[Decree 306/2025](#). Internalization Res. GMC 05/2025. Cleaning products and related.

[Decree 307/2025](#). Internalization Res. GMC 07/2025. Prohibited substances update for cosmetics.

[Decree 305/2025](#). Internalization Res. GMC 06/2025. Restricted substances list for cosmetics.

Andean Community

[Decision 944/2025](#). Modifies Art. 9 of Decision 833.

[Resolution 2540/2025](#). Modifies Res. 2310 Technical Regulation for Labeling of Cosmetic Products.

[Resolution 2548/2025](#). Prohibition of Diphenylphosphine oxide (TPO) and Dimethyl-p-toluidine (DMTA) in cosmetic products.

COLOMBIA

Requirements for the voluntary presentation of non-financial information. [External circular](#) from the Superintendency of Companies (Sustainability Report requirement).

Disclosure of formats for exceptions to the SUP regulation prohibition and plastic tax (issued by ANLA, Ministry of Environment statement pending). [Sustainable alternatives files](#). [100% PCR files](#).

Tree planting. [Resolución 1491 de 2025](#). Companies must plant two trees for every worker. In force since publication – October 17, 2025.

Central America

In 2025, COMIECO did not issue new publications; the RTCA (Central American Technical Regulation) for cosmetic product quality verification, RTCA for registration of hygiene products, and RTCA for hygiene product labeling are currently being updated.

COSTA RICA

[Executive Decree 45224-S](#). Simplified Sanitary Registration; Procedure for Third-Party Import Authorization.

[MS-DRPIRS-3069-2025](#). Legal documents for sanitary product procedures.

[Application form for the issuance of good manufacturing](#) practice certificates for food and cosmetic manufacturers.

[MINSa Communication](#) with the prohibition of Diphenylphosphine oxide (TPO) and Dimethyl-p-toluidine (DMTA) in cosmetic products.

[Circular MS-DRPIS-2838-2025](#). Reduced 1% VAT rate for Sunscreens "non-toxic to coral reefs."

EL SALVADOR

[Executive Decree 1](#). Globally Harmonized System (GHS) of classification and labeling of chemical products.

[Formats for notification of fraudulent cosmetic products and notification of undesirable effects of cosmetic products.](#)

PANAMA

[Res. 044/2025](#) repealing Res. 353/2024. Manual of Good Cosmetovigilance Practices.

[Note 057/SCV/DFV/DNFD-2025](#). Prohibition of Diphenylphosphine oxide (TPO) and Dimethyl-p-toluidine (DMTA) in cosmetic products.

GUATEMALA

[F-IP-r-01](#) version 09-2025. Import Requirements.

DOMINICAN REPUBLIC

[Res. 0017-25](#). Technical Regulation Governing the Marketing of Cosmetics, Personal Care, and Home Care Products.

Integrated Solid Waste Management – [Amendment](#) of this law.

Pacific Alliance

In 2025, the PA did not issue new publications.

CHILE

Eco-labeling - Terminating the procedure for drafting the supreme decree regulating eco-labeling [R.E. N°4067/2025](#).

[Resolution 7595/2024](#). List of hazardous substances for industrial use notified during 2024.

[Guide](#) for the execution and presentation of stability studies for sanitary and domestic disinfectant products.

[Informative Note](#), Alert [SPC-01/2025](#), [SPC-02/2025](#), [SPC-03/2025](#). Market withdrawal of products with Diphenylphosphine oxide (TPO) and Dimethyl-p-toluidine (DMTA).

MEXICO

[General Law](#) on Circular Economy.

New advances in positions and strategic tools of the industry:

This year, three key CASIC regional positions for the industry were approved:

1-

Position on Extended Product Responsibility – Shared.

A scheme assigning common but differentiated responsibilities to each actor and establishing implementation guidelines according to local context.

2-

Declaration of allergens
for product regularization purposes and on cosmetic product labels.

3-

Manual of Good Regulatory Practices on Sunscreens
based on Global Regulatory References.

During 2025, CASIC team worked on unifying databases of current regulations in the region (sanitary and sustainability). CASIC’s regulatory dashboard will include:

- Regulations for each country (Sustainability and Sanitary) – by category and for all countries in the Region.
- Notification and/or Sanitary Registration Requirements.
- Labeling Requirements.
- Costs, times, and responsible Authorities.
- Current Sustainability Regulation in LATAM not applicable to our industries.
- Mapping the adoption level of best regulatory practices by country for cosmetics and domestic cleaning categories.
- Mappings of Ingredient Evolution at the international level.
- Mapping of cannabis regulation in cosmetics by country.

CASIC PARTICIPATION IN REGIONAL AND INTERNATIONAL EVENTS:

19

JANUARY

27

Participation in the International Cleaning Products Associations Forum, INCPA:

A unique opportunity to learn about global regulatory advances. During this meeting, CASIC's proposal to develop global joint work on e-labeling was formalized.

STRENGTHENING COMMUNICATION WITH MEMBERS, THE INTERNATIONAL INDUSTRY, AND MULTILATERAL INSTITUTIONS.

28 to 30

American Cleaning Institute (ACI) Annual Convention:

Main topics were sustainability and sustainable regulations, along with regulatory updates from various countries. The President of CASIC participated in the Global Industry Panel before the plenary convention of industry leaders. CASIC's active participation reinforces the Council's position as the

leading industry association in the Region before Global peers. Participation together with the Associations of Colombia (ANDI), Ecuador (PROCOSMETICOS), and Mexico (CANIPEC).

FEBRUARY

19 to 21

Present at the PCPC Beauty Collective Summit and the IAC Forum:

CASIC participated in the **Beauty Collective Summit** organized by the sister association in the US, the **Personal Care Products Council (PCPC)**, and in the meeting of the **International Association Collaboration (IAC) Forum**, addressing developments in **Trade and Regulations** for the cosmetic industry worldwide.

APRIL

09

International Seminar on NAMs - Human and Environmental Safety.

Event organized by the ICCS and the Federal University of Goiás (Brazil), focused on **alternative methodologies to animal testing**. CASIC participated as moderator.

20

MAY

15

VII "CLEANING AND BEAUTY REVOLUTION" Congress of Procosmeticos Ecuador.

CASIC participated with a presentation on Andean Community updates for the cosmetics and home care industries.

JUNE

10, 11 and 12

Cosmetics Europe Annual Conference - CEAC, and IAC Global Associations Meeting.

CASIC participated in the second in-person meeting of the IAC Forum, as well as CEAC 2025, learning from presentations and panels on global industry trends. Cosmetics Europe invited the Executive Director to be part of an international panel on technology use and innovation.

25 and 26

IKW Seminar.

CASIC participated in the seminar organized by our sister Association in Germany, IKW, sharing a Latin American regulatory update with its members.

JULY

24

CASIC Participation in CANIPEC Webinar – THE FUTURE IS CIRCULAR:

The role of Circular Economy in the Personal and Home Care Industries.
Key Circular Economy concepts were addressed.

AUGUST

28

CASIC President's visit to Partners in Brazil.

Fostering proximity with Members and listening to their needs, challenges, and proposals.

SEPTEMBER

12

Latin American and Iberian Congress of Cosmetic Chemists – COLAMICQ.

CASIC participated in the Cosmetic Regulatory Forum panel along with ANMAT, INVIMA, ANDI's Cosmetics and Cleaning Association, and Schwan Cosmetics Mexico Division.

24

Participation in In-Cosmetics LATAM.

Talk within the training forum of the In-Cosmetics Latin America fair in Brazil on the Region's regulatory environment for the Cosmetics industry.

22 to 26

Executive Director Visit to CASIC Members in Brazil.

Meetings with teams from Brazil-based Members: ABIHPEC, Natura, Kenvue, Procter & Gamble, Givaudan, and IFRA LATAM, strengthening ties and discussing strategic priorities.

In-person attendance at AFAPER's 50th-anniversary celebration.

CASIC shared a presentation on the relevant role of Associations, and also the progress in EPR-S implementation in Latin America.

Participation in Biodiversity Week – Cali.

CASIC participated in the Round Table on the "Cali Fund" organized by the CBD (United Nations), the Mayor's Office of Cali, and the Ministry of Environment of Colombia.

OCTOBER

CASIC at the 6th Meeting of the Latin American Regulatory Cooperation Forum (LARCF).

CASIC participated along with Authorities, Industry, and cooperation entities like the OECD and United Nations.

NOVEMBER

CASIC at the XVI CANIPEC International Seminar "The Science behind Personal and Home Care."

Contributing with 2 talks on key topics: ICCS progress; and EU Digital Product Passport and digitalization in our industries.

In 2025 we achieved:

- Exponentially increasing our numbers compared to the previous year.
- Engaging actively with the industry
- Remaining on the agenda by addressing key priority issues
- Developing the 'look & feel' for events"

We continue communicating all industry news and CASIC participations through our Bimonthly Newsletter.

NOVEMBER

We launched the [#ImpactoVivo campaign](#), focused on showcasing the progress of our member companies in meeting the Sustainable Development Goals (SDGs) of the 2030 Agenda. Discover our progress on our [website](#)!

We extend our gratitude to all our Members for their effort and commitment during 2025. The year continued to be a testimony to the importance of joint and coordinated work in the Region's volatile environment.

We look toward 2026 with the conviction of achieving many more milestones. CASIC, its team, and the Board of Directors reaffirm their commitment to continue seeking best practices in the region and defending the strategic objectives of the industry. The key to success lies in strengthening our regional collaboration.

Thank you for being a fundamental part of this shared mission!

¡Thanks to all our partners!
